

WHAT WILL BE THE WORKING OF PART-TIME EMPLOYEES

WORKING

1. This is an online home-based job in which we will provide you with the information about the project and programs, advertising material and job vacancies of different companies. All the advertising data will be provided to the employee by the company. You just have to copy that data and paste it on the different classified websites. In starting you will be provided with near about 100 classified websites which are the India's busiest websites.
2. There is no work and time targets.
3. Work according to your suitability at any time in day or night.

TRAINING

1. Proper training will be provided to the employees by our highly experienced professionals on the phone.
2. Training will keep going on until you will not understand.
3. Proper assistance will also be provided to earn good income.
4. In-between training assistance is also available if any problem arises.

REGISTRATION FOR PART-TIME JOB

1. We have different registration fees for the joining of our part-time job according to the time periods.
2. This amount is treated as your training, technical and non-technical support charges.
3. Proportion of the registration amount is also refundable after the completion of the time period and if you don't want the refund you can get extensions in that amount only.
